

BMP Practice	Category						
	Bioretention Systems	Filtering Technologies (non-bioretention)	Permeable Pavements	Site Design Strategies	Soil Amendments	Vegetative Systems	Water Conservation/Reuse
Bioretention Basins (Peak and Volume)	✓						
Bioretention Cells (Water Quality Only)	✓						
Bioretention Slopes	✓						
Bioretention Swales	✓						
Green Roofs	✓						
Tree Box Filters	✓						
Catch Basin Controls (Proprietary and Non-Proprietary)		✓					
Dry Wells		✓					
Filtration Devices (Proprietary and Non-Proprietary)		✓					
Gutter Filters		✓					
Street Sweeping		✓					
Surface Sand Filters		✓					
Water Quality Swales		✓					
Infiltration Strips (Percolation)			✓				
Permeable/Porous Pavements (Asphalt, Concrete, Blocks)			✓				
Disconnect Impervious Areas/Downspout Disconnection				✓			
Flow Splitters				✓			
Site Minimization/Fingerprinting/Impervious Areas Reduction				✓			
Time of Concentration Practices/Surface Roughening				✓			
Soil Amendments					✓		
Bayscapes/Environmentally Sensitive Landscaping						✓	
Planter Boxes						✓	
Reforestation/Afforestation						✓	
Cisterns/Rain Barrels							✓
Pollution Prevention							✓
